CLS Color Changer Controller

The CLS CCC is a color changer controller for followspot scrollers.

CCC has an easy programmable cue and setup from a PC using USB, and it fits all followspots using velcroue. The CCC has built in 24V 1,6A powersupply for the scroller, 7 DMX channels and one button operation. Program your series of color changes, and push the button to advance from one to the next.

- 100-240V 50-60Hz mains power.
- 128 scenes programmable from PC using USB
- 24V powersupply for colorchanger
- DMX and 24V out using 4 pins Neutriks XLR
- Easy mounting on any followspots
